

Learning outcome 5: Personal Leadership

Screenshots of my message of reaching for feedback from my 1 st group project client:

Dear Nathalie,
My name is Aisa Szakal from Fontys and since this is the last week working on the project of yours, I thought it would be great to contact you lastly before the presentation.
We finalized the style scape (with colours, fonts, style) and I would ask you if there is anything that you don't like about it.
We also have the two final logos that we changed a bit since the last talk with you, so maybe if you could choose one that would be great (I attached everything below).
Overall, I know we didn't speak with you that much, but it was nice to "meet" with you, see your work, and hear your story.
I hope you will like the final product.
Kind regards,
Aisa Szakal (and team2).

Hey groep 2,

you were great. You listened really to what my questions were. Cute logo, tips for socials and find out who is going to buy my work. Your communication was clear and really friendly. That makes me feel that you 'see me' as a customer. You gave me choices and gave me tips I did not think about. Your flyers were also surprising en stamp logo original.

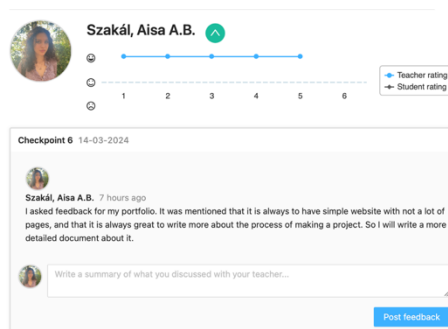

So, I thank you for working together and wish you all the best!

And if you like it, feel invited to visit my atelier at 20 or 21 april, Biezenkullen 101 Veldhoven.

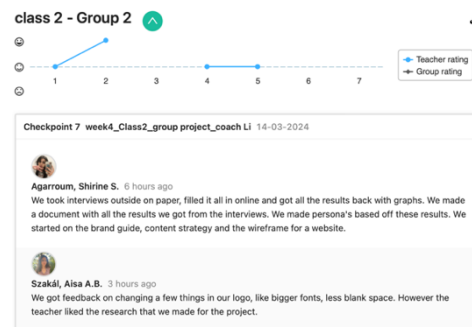

Greetings Nathalie

You can see I ask feedback from teachers regularly.

My group is also very eager to ask feedbacks.
